The Missouri Steam Washer is a small portable machine that can be used upon any family cook stove. Is made wholly of metal, hence very durable. By operation of the machine steam is passed through and through the soiled linen, until all dirt is removed from it, leaving articles thoroughly cleaned and purified. By use of perforated tubes we keep clothes always in motion, and steam forced through them, causing it to search out and eradicate every atom of dirt in them. READ WHAT THEY SAY OF IT AFTER HAVING USED IT.

Steam is the most powerful closusing agent and disinfectant known to man.—Watts.

I have been using the MISSOURI STRAM WASHER for five months, and my little girl it years old, can do a large washing in a few hours, without tiring her in the least.—Mr. Johnson, 211 Thomas street, 81 Louis.

J. WORTH, proprietor of the People's Tea Store, 1714 Franklin awa, St. Louis, 232: "The Minsourin STRAM WASHER is an immune success, as if will wash a shirt clean without the sweat of the weathourst."

Have used the MISSOURI STRAM WASHER for twelve mouths and regard the invention an admostic institution not second to seveing machines.—E. W. Stephens, Columbia, Mo. Herald.
